

Even the man who is his own worst enemy is always ready to forgive himself.

As a summer tonic there is no medicine that compares with OXIDINE. It not only builds up the system, but taken regularly, prevents Malaria. Regular or Tasteless formula at Druggists.

When a couple is engaged they look at each other's virtues with magnifying glasses, which are thrown aside on their wedding day.

TO DRIVE OUT MALARIA
Take the Old Standard GHOV'S RASTLESS OXIDINE. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form, and the most effective form. For grown people and children, 50 cents.

There are lots of funny things to be seen in this world, and among them is a fat woman sitting on a little piano stool.

The Paxton Toilet Co. of Boston, Mass., will send a large trial box of Paxline Antiseptic, a delightful cleansing and germicidal toilet preparation, to any woman, free, upon request.

its Rank.
"Do you think telephone operation can be classed as a profession?"
"Well, it certainly is a calling."

DOES YOUR HEAD ACHE?
Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate relief—good for preventing Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c, 25c, and 50c. at medicine stores.

Appropriate Name.
"Why does that doctor's wife call her husband, Duckie?"
"Why not? Isn't he a quack?"

To prevent Malaria is far better than to cure it. In malarial countries take a dose of OXIDINE regularly each week and save yourself from Chills and Fever and other malarial troubles.

Hurry, Girls!
Uncle Sam has just issued a little brochure on fattening calves. Hurry, girls, as the edition will soon be exhausted.—Washington Post.

Kind Man.
A local philanthropist ordered a fan for himself, a nice electric buzzer. He also took the key out of the door so that some of the air could go through the keyhole into the adjoining room, where there are eight peeping clerks.

AFTER THE DOCTOR FAILED.
Even the most stubborn cases of malaria yield to Elixir Babek.
"In the summer of 1896, I contracted the disease known as Malaria. After a year's fruitless treatment by a prominent Washington physician, I was entirely cured by your Elixir Babek."—Bralie O'Hagan, Troop E, 6th U. S. Cav. It is equally good for bilious disorders. Elixir Babek, 50 cents, all druggists, or Kloczewski & Co., Washington, D. C.

Accorded Full Title.
One of the New York representatives in congress tells of a social function in an assembly district political club on the East side, whereat the chairman of the entertainment committee acted as master of ceremonies.

The chairman was very busy introducing the newly-arrived members of the club to the guests, who included a number of municipal officers. The representative mentioned was presented in a way to have his official honors with his wife, as "The Honorable and Mrs. Congressman Blank." Next came a couple who were not known to the master of ceremonies, but after receiving the correct name in a whisper, he announced: "Mr. and Mrs. Inspector of Hygiene, Faucets and Shopworks Casey."—Lippincott's.

INTERESTED IN HIM.

Natica—You aren't thinking of marrying Reggy, are you?
Evelyn—Of course I am. Hasn't he a future?

Natica—Yes, to be sure. But why jeopardize it?

WELL PEOPLE TOO
Vise Doctor Gives Postum to Convalescents.

A wise doctor tries to give nature its best chance by saving the little strength of the already exhausted patient, and building up wasted energy in simple but powerful nourishment.

"Five years ago," writes a doctor commenced to use Postum in my own family instead of coffee. (It's well-known fact that tea is just as injurious as coffee because it contains caffeine, the same drug found in coffee.) "I was so well pleased with the results that I had two grocers place in stock, guaranteeing its sale."

"I then commenced to recommend it to my patients in place of coffee, as a nutritious beverage. The consequence every store in town is now selling as it has become a household necessity in many homes."

"I'm sure I prescribe Postum as often as any one remedy in the Materia Medica—in almost every case of indigestion and nervousness I treat, and with the best results."

"I once introduce it into a family quite sure to remain. I use it to use it and prescribe it where I practice."

"I have seen it in cases of pneumonia, and other cases I give it as a healthy absorbed diet."

"I have seen it as a reference letter as a reference to 'Name given by Dr. J. C. Wellville,' in London."

"I have seen it as a reference letter? A new name to time. They are full of human

SOUTH CAROLINA CAN LEAD WORLD

IN CROP PRODUCTION AS HAS BEEN SHOWN IN MANY DIFFERENT WAYS.

HOW THE WORK CAN BE DONE

Remarkable Crop Has Been Raised In This State—This Farmer Has Shown What Can Be Done on One Acre of Land.

Rock Hill.—That South Carolina farmers can easily lead the world in crop productions has been more than once publicly stated. South Carolina soil and climate—plus brains, plus work—can do the work, and when it is not accomplished the reason can always be traced to lack of work and energy, lack of intelligent application.

A most remarkable crop has been raised in this county, two or three miles outside of Rock Hill, by Sam Barron, who owns and operates a farm at Ebenezer. He entered the \$250 gold prize contest inaugurated by the National Union bank of Rock Hill. He set aside one acre, planted it in sugar cane. The contest judges measured and weighed the crop, which had just matured, and found that Mr. Barron had raised 13 and one-half tons of cane on this prize acre. At the low price of \$12.50 per ton, it will be seen that this acre produced a crop valued at \$181.75; but that is not all. Mr. Barron will yet make a second crop of cane on this acre, and he feels sure that with the second crop that acre will easily net him \$250. Is there an acre of cotton anywhere in the South that will produce anywhere near that figure.

In this contest many farmers of York county have entered acres, devoted to corn, peas, potatoes (sweet and Irish) and cotton, and it is expected that some remarkable yields will be made—only going to show that if the Southern farmers would devote some of their land to the raising of feedstuffs, a falling cotton market would not bankrupt them. One farmer in this contest, who planted Irish potatoes, thinks that his acre will net him over \$250.

Last Meeting of Biennial Canvass.
Piedmont counties to the number of a dozen yielded an audience of 4,500 for the state campaign meeting held in City Park, Greenville. This was the forty-fourth and last official meeting of the biennial canvass unparalleled within a score of years for spirit and interest. Elaborate police dispositions forestalled execution of any will or purpose which might have been entertained to create disorders. The only disturbance was a fist fight between spectators, which was quelled in its incipency without interfering appreciably with the program.

Campaign Meeting in Edgefield.
About 300 persons assembled in the court house to hear the senatorial and congressional candidates speak. Despite the long siege of campaigning and the intense heat the candidates appeared to be in fine form. The manner in which the senatorial campaign in this district consists almost entirely of personalities. County Chairman B. E. Nicholson presided and presented N. B. Dial of Laurens as the first speaker.

No Money For Prioleau.
Aaroon Prioleau, the South Carolina negro who has been getting good pay from the government every two years by making contests against Congressman Lagare, has probably drawn his last stipend from the federal till. Prioleau has regularly been receiving \$2,000 for these bogus contests, and until a short time ago his claims were promptly paid. Now, however, the axe has fallen. When the deficiency bill making provision for payment of such claims came up, there was nothing for Prioleau.

Campaign in Greenwood County.
The Greenwood county campaign proper opened so far as the county is concerned at Bradley. The first speaking of the campaign was at the Grenndel mills, the day after entries had closed. A crowd of about 200 voters heard the candidates at Bradley and it was unquestionably a Jones crowd. Out of the 40 candidates offering for office in Greenwood county, 28 are for Judge Jones for governor and 12 are for Blease. Every candidate from state senate down to cotton weaver has declared himself.

Desperate Over Conditions.
A Charleston man who farms in Colleton county stated that the farmers in that county are quite desperate over the failure of the crops, due to inclement weather. The informant said that he had never seen so much rain. Showers have been frequent and at times taking the form of cloudbursts. The soil has never been allowed to dry and in consequence all the crops have suffered. He said he had seen nothing of the army worm, but the elements had worked damage enough without the insects.

Comes Near Being Counted Out.
N. B. Dial, candidate for the senate, has come very near being counted out of the race, although so far the campaign has cost him \$2,058.70. There is a federal law which requires candidates for the senate to file an itemized sworn account with the secretary of the senate prior to the election. Mr. Dial filed the statement but it was not under oath. Secretary Bennett discovered the error and has written Mr. Dial to file another account under oath. The amount expended was for necessary expenses.

Breeding Farm For South Carolina.
J. F. Barbe, a well-known Kentucky horse breeder, is in Greenville prospecting with a view to organizing a \$100,000 company to start a breeding farm near Greenville. Mr. Barbe has already interested a number of local capitalists in his plan, among them being Henry T. Mills. It is understood that only \$25,000 in shares will be floated, as the promoters will take the majority of stock. Mr. Barbe is enthusiastic over this region for stock breeding purposes.

Damage of Red Spider in Chester.
Chester.—More reports continue to come into the city of the depredations of the red spider. Mr. Henry C. Grafton, one of Chester county's biggest farmers, reports the ravages of the spider on several acres of his cotton at his large plantation. It has likewise appeared on Mr. J. R. Reid's plantation at Richburg. In fact it is working in and about almost every section of the county and much fear is entertained over the results that may accrue from its presence.

Hookworm Campaign in Chester.
Chester.—The hookworm campaign in Chester county, under the direction of Dr. L. A. Riser, of Leesville, is proceeding encouragingly. Dr. Riser has examined from eight hundred to nine hundred persons to date, of whom from 15 to 20 per cent are affected with the disease. In comparison with some of the counties in the lower and Pee Dee sections of the state, the amount of infection in Chester county is comparatively small, but at the same time there are many cases.

Campaign Meeting in Lancaster.
Kershaw.—The Lancaster county campaign meeting was held here recently, the speaking taking place in the grove opposite the telephone exchange. Quite a large crowd was present, possibly 200 people being on the grounds. The very best of order was preserved and every candidate given a careful and attentive hearing. The speakers dealt altogether with local affairs, not even touching on the gubernatorial race. The majority of the candidates are lined up for Jones and good government.

Young Lancaster Man Sued.
Columbia.—A special from Charlotte, N. C., states that Mrs. Flossie B. Misenheimer, widow of the late Dr. Fred Misenheimer, who, it is alleged, was stabbed to death by Claude Blackwell of Lancaster, at the Buford hotel last May, has instituted a civil suit against her husband's slayer, asking \$100,000 damages. Blackwell was arrested but was later discharged on the ground that a defendant who is a resident of another state can not be arrested on a civil charge while in attendance at court answering a criminal charge.

Orderly Meeting at Walhalla.
The crowd of 1,200 persons which heard candidates for state offices at Walhalla set an excellent example of attention and decorum. Judge Jones scrupulously avoided any reference to Gov. Blease, but the governor, as usual, devoted most of his time to an attack on Judge Jones in substantial terms he ordinarily employs. Blease declared that at Westminster Judge Jones had taken Blease for his text. Judge Jones replied that in his Westminster address he did not mention the governor's name.

Politics in Sumter County.
Much interest is being manifested in Sumter in the approaching primary election, both in local and state politics. While Sumter county can probably be classed in the Jones columns, there are quite a number of strong Blease men here. The county campaign comes to an end with meetings in Sumter. Other meetings will be held in Dalzell and Rembert. The chief interest in the county campaign is in the election of members of the legislature and in the election of a clerk of court and sheriff.

Campaign Meeting in Lancaster.
Kershaw.—The Lancaster county campaign meeting was held here recently, the speaking taking place in the grove opposite the telephone exchange. Quite a large crowd was present, possibly 200 people being on the grounds. The very best of order was preserved and every candidate given a careful and attentive hearing. CROP PESTS IN NEWBERRY

The Army Worm and Red Spider Have Made Their Appearance in Many Places Recently.

Newberry.—The red spider and the army worm have both appeared on numbers of farms in this county. The red spider has already done serious injury to the cotton crop, and is spreading. Some of the finest fields in the county are suffering from its depredations. Some farmers have attempted to apply the remedy recommended by the entomological department of Clemson College, but with not much success, because the red spider works only on the under side of the leaf, where it is almost impossible for the spray to reach it. Others have adopted the plan of pulling up the first stalks affected and burning them, and this has appeared to meet with greater success; but of course must be adopted very soon after the red spider begins its work or it will not do any good. The army worm broke out fresh several days ago and since then large numbers have appeared, mostly in the portion of the county nearest Newberry. It first took hold of the grass and alfalfa and other tender plants, including young corn, for which it seems to have a special fondness; now it is beginning on the tender leaves of cotton. Alex. Hudson found thousands of the pests in his cotton and immediately began on them with arsenate of lead, following instructions of the Clemson College experts. He invested in 50 pounds more of arsenate of lead and continues the application. Large estimates of the damage already done are made, and it is feared that the cotton crop will be seriously curtailed.

York Watches Progress of Road Work

For some time the people of the River end section have been very much interested in knowing just what would be the outcome in regard to Lancaster county building a road from the new steel Roddy bridge at Ivey's mill out to the national highway between Charlotte and Lancaster. This bridge was completed some time ago at a cost of \$15,000 or more to Rock Hill and York county, and it was understood, when it was decided that the bridge was to be put there, that Lancaster county would build a road from the bridge to the national highway, one and a half miles from the bridge. On the Lancaster side at the end of the bridge is a tremendous hill and when they started to work they found this hill to be almost a solid rock and towering like a mountain in front of them and the work was given up. It is learned that the Lancaster road force began work there again with steam drills and other paraphernalia and will cut through the hill and finish the road out to the highway at a cost of \$3,500.

South Carolina New Enterprises.

The secretary of state has issued a charter to the Williamsburg Realty Company of Kingstree, with a capital stock of \$3,000, to conduct a general real state business, the officers being R. H. Pittman, president and general manager; M. A. Shuler, secretary and treasurer. The Scott Safety Track Appliance Company of Central was commissioned, with a capital stock of \$10,000, the business of the company, as set forth in its commission, being to "offer stock for sale in one frog in one angle bar and one metallic cross tie, for the purpose of demonstrating and manufacturing. Also to offer stock in the Scott Safety Track Appliance company in exchange for other patent rights.

First Week of County Campaign.

The first week of the county campaign was concluded at Ruffin several days ago. There were five meetings during the week, Snider's, Rice Patch, Lodge, Smoaks and Ruffin. The campaign party was handsomely entertained at each of these places except Lodge, and there the homes were opened to the members of the party. The campaign has been conducted on a high plane. So far there has been not much ginger injected, although a spat arose at Smoaks between county auditor, D. L. Smith, and one of his opponents, J. B. Dodd. Mr. Smith was a member of the delegation last year and received his appointment on the death of the late R. R. Black.

Hookworm Campaign in Chester.

SOCIALISTS WORK

FOR THEIR PARTY.—WAGE ACTIVE CAMPAIGN IN STATE OF SOUTH CAROLINA.

SEIDEL WILL SPEAK SOON

The Mayor of Milwaukee and Nominee For Vice President Delivered an Address in Columbia.—Has Nominated a Full State Ticket.

Columbia.—The Socialist party in South Carolina is becoming militant. It has held a state convention, nominated a full state ticket and is carrying on an active campaign in several counties. Neither the Republicans nor the Progressive party have nominated state or county tickets, and from present indications the Democrats and the Socialists will have the general election on November 4 in this state all to themselves as far as state and county offices are concerned.

The Progressive party has never made any attempt at organization in South Carolina. A conference of 20 or more Rooseveltians was held in Columbia a few weeks ago, but there has never been anything like a state convention, nor was South Carolina represented at the national Bull Moose convention at Chicago, which put Roosevelt in the running with Taft, Wilson and Debs for the presidency.

Since the split in the Republican party, the Socialists claim that in point of strength they rank fourth among the great national political organizations. Fifth and six place probably go to the Prohibitionists and Populists, respectively.

The Socialists in South Carolina are headed by Richard B. Britton of Charleston, their nominee for governor. The election in November will show the party's voting strength in this state. A Columbia Socialist says that the vote will surprise many Democrats who have not kept track of the Socialists' growth during the last few months.

Emil Seidel, mayor of Milwaukee and Socialist nominee for vice president, will deliver an address in Columbia on September 10.

Campaign in Calhoun Closes.

St. Matthews.—The county campaign closed here, approximately 1,500 people were in attendance. A barbecue dinner was served and everybody had a good time. The candidates were all asked to name their choice for governor, but all except J. A. Banks and G. W. Fairry, candidates for the senate, declined to answer. Both of these stated that they would vote for Judge Jones.

Campaign Expenses Filed.

Columbia.—Five of the candidates for office have filed their campaign expense accounts with the secretary of state. The following are the expense accounts filed: B. R. Tillman, candidate for United States senate, \$250, all of which was for assessment fee; W. P. Pollock, candidate for congress from the Fifth district, \$572.60; of which \$250 was for assessment fee; J. K. Henry, candidate for solicitor of the Sixth circuit, \$113.20, of which \$50 was for assessment fee; Wade Hampton Cobb, candidate for solicitor of the Fifth circuit, \$61.35, of which \$50 was for assessment fee; B. M. McCown, candidate for secretary of state, \$55.87, of which \$50 was for assessment fee.

Young Lancaster Man Sued.

Columbia.—A special from Charlotte, N. C., states that Mrs. Flossie B. Misenheimer, widow of the late Dr. Fred Misenheimer, who, it is alleged, was stabbed to death by Claude Blackwell of Lancaster, at the Buford hotel last May, has instituted a civil suit against her husband's slayer, asking \$100,000 damages. Really Had Best of It.

John Burroughs is well known as one of the foremost of nature writers in this country. Some time ago he visited his brother, Eden Burroughs, who lives in the Catskills, at a place called Hobart. The two brothers went fox hunting together. The honor of the hunt came to Eden, who shot the only fox. It so happened that foxskins were worth five dollars at that time, and the successful Nimrod took much pride in telling how he got the better of the sage of Slabides. Later in boasting to a few friends about it in the presence of his brother, John, he was interrupted by, "You have bragged about that fox hunt long enough. You shot the fox, sold the skin and got five dollars. I wrote a little account of the hunt, and got \$75 from the magazine which published it. So there you are!"

Mother's Lingual Attainment.

The mother of a little boy in Kansas City, Kan., recites negro dialect stories charmingly. Her small son is quite proud of her accomplishment and frequently boasts of it. One day recently, when some of his playmates were vaunting the achievements of their several mothers, the little boy braggingly remarked: "My mother is smarter than any of yours; she can talk two languages." "What are they?" demanded his companions. "White and colored."

How He Left.

The servants were discussing the matter below stairs. "Master and mistress 'ad something of a row last night, I 'ear," said the butler ponderously. "You should have heard 'em," answered the parlor maid in a shocked tone. "Scandalous is what I call it!" "They tell me 'e ran out, cranked 'is motor car and left it in." "No," said the maid, positively, "he didn't leave in his machine; I distinctly heard the mistress say he left in a huff."—London Answers.

Regular practicing physicians recommend and prescribe OXIDINE for Malaria, because it is a proven remedy by years of experience. Keep a bottle in the medicine chest and administer at first sign of Chills and Fever.

A man knows more at 21 than he can unlearn between that and 60.

ON THE BEACH.

She—Drowning men catch at straws.
He—(absently)—So do thirsty men!

Took Slot Machine at Its Word.

A Kansas City woman recently took her two small daughters to make their first visit to her husband's people, living in a small Kansas town. Naturally she was anxious to make as favorable an impression as possible. So the two little people, on going on an errand to the depot, were cautioned to be on their very best behavior. To the mother's surprise, they returned vigorously chewing gum. As they had no money, she asked them where they got it. "Oh," explained the older one, "it said on the slot machine, 'Ask the agent for pennies,' so we did."

College and Academy of St. Genevieve for Young Ladies, Asheville, N. C.
Located in the "Land of the Sky" 300 feet above sea level. Unsurpassed climatic conditions with mild winters. Ideal home-life instructors hold degrees from European and American Universities. The languages are taught by French and German professors. St. Genevieve also has a Preparatory Department for young children. For catalogue and particulars apply to the Mother Superior.

What is your idea of a perfect husband?
"One with about a million, who would lose no time in making me a merry widow."

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

Even a homely man is apt to boast of how the women run after him.

MOTHER OF LARGE FAMILY

Tells How She Keeps Her Health—Happiness For Those Who Take Her Advice.

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, Lydia E. Pinkham's Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house."

"I will say also that I think there is no better medicine to be found for young girls. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has helped her."

"I am always ready and willing to speak a good word for Lydia E. Pinkham's Vegetable Compound. I tell every one I meet that I owe my health and happiness to your wonderful medicine."

—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 8.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy for women's ills known.

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syr
